## Garmin GPSMAP 64s

Enjoy **FREE Ground shipping** via **Canada Post** on this awesome unit!  
Limited time offer. Bulk orders are subject to shipping charges. Offer only valid within Canada.

How is the GPSMAP 64s different from GPSMAP 62s?

- NEW** High-sensitivity GPS/GLONASS receiver with quad helix antenna for increased signal reception
- NEW** Built-in internal memory includes 4GB
- NEW** Receive Smart Notifications\* and pair with optional ANT+™ sensors, such as [heart rate monitor](#), [tempe™ temperature sensor](#), [speed/cadence](#), or use to control your [VIRB™ action camera](#)
- NEW** Easily manage and share waypoints, routes, tracks and more by transferring data from your handheld to your iPhone with BaseCamp Mobile
- NEW** Wirelessly upload data to Garmin Connect and view on smartphone, plus share activities as they happen with LiveTrack with Garmin Connect Mobile
- NEW** Includes a 1 year subscription of [BirdsEye Satellite Imagery](#); simply download using BaseCamp™. In addition, the BirdsEye Satellite service features improvements such as enhanced image quality in many regions and significantly better download performance
- NEW** 250,000 preloaded worldwide geocaches from Geocaching.com, plus more storage and new tools such as advanced filtering and deleting
- NEW** Use with 2 traditional AA batteries, or the optional rechargeable NiMH battery pack that can be charged while inside the device
- NEW** Increased number of waypoints, now includes a total of 5,000

Rugged, Full-featured Handheld with GPS, GLONASS and Wireless Connectivity

- 2.6" sunlight-readable color screen
- High-sensitivity GPS and GLONASS receiver with quad helix antenna
- 1-year BirdsEye Satellite Imagery subscription
- 3-axis compass with barometric altimeter
- Wireless connectivity via Bluetooth® technology<sup>1</sup> or ANT+™

GPSMAP 64s features a 2.6" sunlight-readable color screen and a high-sensitivity GPS and GLONASS receiver with a quad helix antenna for superior reception. GPSMAP 64s includes a 3-axis electronic compass with barometric altimeter, wireless connectivity and a 1-year [BirdsEye Satellite Imagery](#) subscription.

Get Your Bearings

GPSMAP 64s has a built-in 3-axis tilt-compensated electronic compass, which shows your heading even when you're standing still, without holding it level. Its barometric altimeter tracks changes in pressure to pinpoint your precise altitude, and you can even use it to plot barometric pressure over time, which can help you keep an eye on changing weather conditions.

Share Wirelessly

Share your waypoints, tracks, routes and geocaches wirelessly with other compatible devices. Your friends can enjoy your favorite hike or cache without waiting for you to plug in to your computer — simply press "send" to transfer your information to another Garmin handheld.

GPSMAP 64st also connects to compatible Garmin devices, including [VIRB™](#) and accessory sensors, including [tempe™](#), [foot pod](#) and [heart rate monitor](#).

Stay Connected

With Smart Notification you can wirelessly receive email, texts and alerts from your compatible iPhone® 4s or later. Stay connected without having to dig into your backpack for your smartphone.

Explore the Terrain

GPSMAP 64s comes with a built-in worldwide basemap with shaded relief plus a 1-year BirdsEye Satellite Imagery subscription, so you can navigate anywhere with ease. With photo navigation, you can download geotagged pictures from the Internet and navigate to them.

Package includes:

- GPSMAP 64s
- 1-year BirdsEye Satellite Imagery Subscription
- Carabiner clip
- USB cable
- Quick start manual

### Quad helix antenna with GPS/GLONASS

Find your way with the first quad helix GPS receiver that tracks both GPS and GLONASS satellites simultaneously. When using them together, the receiver has the ability to lock onto 24 more satellites than using GPS alone, ensuring you can "lock on" to a position more quickly.

**Keep Your Fix**

With its quad helix antenna and high-sensitivity, GPS and GLONASS, receiver, GPSMAP 64s locates your position quickly and precisely and maintains its location even in heavy cover and deep canyons. The advantage is clear — whether you're in deep woods or just near tall buildings and trees, you can count on GPSMAP 64s to help you find your way when you need it the most.

**Add Maps**

GPSMAP 64s comes with a built-in worldwide basemap with shaded relief and a 1-year subscription of BirdsEye Satellite Imagery for a photo-realistic view. Adding more maps is easy with our array of detailed topographic, marine and road maps. With 4 GB of onboard memory and microSD™ card slot, you can conveniently download TOPO 24K and 100K maps and hit the trail, plug in [BlueChart® g2](#) preloaded cards for a great day on the water or [City Navigator NT®](#) map data for turn-by-turn routing on roads (see maps tab for compatibility). In addition, the 64s is compatible with [Garmin Custom Maps](#), a map format that allows you to transform paper and electronic maps easily into downloadable maps for your device, for free.

**Find Fun**

GPSMAP 64s supports paperless geocaching with 250,000 preloaded caches with hints and descriptions from [Geocaching.com](#), and has a 16-hour battery life. By going paperless, you're not only helping the environment, but also improving efficiency. GPSMAP 64s stores and displays key information, including location, terrain, difficulty, hints and descriptions, which means there's no more manually entering coordinates and paper printouts! Slim and lightweight, 64s is the perfect companion for all your outdoor pursuits.

**Plan Your Next Trip**

Take charge of your next adventure with [BaseCamp™](#), software that lets you view and organize maps, waypoints, routes and tracks. This free trip-planning software even allows you to create [Garmin Adventures](#) that you can share with friends, family or fellow explorers. BaseCamp displays topographic map data in 2-D or 3-D on your computer screen, including contour lines and elevation profiles. It also can transfer an unlimited amount of satellite images to your device when paired with a BirdsEye Satellite Imagery subscription.

<sup>1</sup>GPSMAP 64s is a Bluetooth® Smart device and can wirelessly sync with compatible Bluetooth® Smart Ready phones. Contact your provider to verify if your phone is compatible. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.
