Shovel or pick positions possible

Ease of use

Folds for easy storage

TECHNICAL INFORMATION

Dimensions and weight

Folded length: 25 cm | Unfolded length: 58 cm | Weight with cover: 1.08 kg | Weight without cover: 0.80 kg

OUR ENVIRONMENTAL POLICY

Because we are aware that we must act to preserve our playground, Quechua is committed to limiting the environmental impact of its products.

Today, this product is not eco-designed, but we work every day to make it more responsible: eco-design, reparability and sustainability are at the heart of our developments.

Product concept & technology

Product Composition

Main part 100% Stainless Steel Carry bag 100% Polyester

STOCK ADVICE

We recommend you store this product in a dry, clean place.

TESTS

Our Quechua global design centre is based in Passy, at the foot of Mont-Blanc in Haute Savoie.

This location makes it a real meeting place for our teams (designers, product managers, engineers, etc) and outdoor sports enthusiasts.

A great asset for designing quality products for your camping trips, and providing you with all our expertise.

Approved By

To meet your requirements, Quechua products are tested outdoors in conditions that you will come across during your camping trips.

Our teams, as well as a tester panel (made up of partners, ambassadors and customers), test products throughout their development until they go to market.
