Qty:

Our Price: \$173.00

Magnification: 10x
Lens Size: .91" diameter (approx.)

Availability: Usually Ships in 24 Hours

Product Code: EPK-1187

Description

Eschenbach Folding 10x Magnifier

Eschenbach has employed the latest technology and manufacturing methods to design the lens and case of this unique folding pocket magnifier. The Eschenbach Folding 10x Magnifier features powerful 10x magnification lens in a very compact size. The Folding 10x Magnifier has an aplanatic distortion free PXM® lightweight lens with a duplex anti-static, anti-scratch coating. It folds out to approx. 2.5" long by 1" wide. This is a great, stylish magnifier for carrying in your pocket or handbag.

Please note: Like other high power magnifiers, this 10x magnifier requires a very short distance between the eye and the magnifier to achieve maximum magnification. This distance is approximately 1.5". As a result, this magnifier must be held very close to the eye and also very close to the object being viewed in order to achieve magnification. Made in Germany.

Eschenbach Folding 10X Magnifier:

- Magnification: 10x
- Lens Size: approx. .91" (23mm)
