

NEW MARMIN outdoor handhelds GPS MAP 64X

Product Description

Navigate your next adventure with the GPSMAP 64x handheld navigator series. Whether you're hiking, cycling, geocaching or climbing, you are free to explore more with proven Garmin handheld navigation in the palm of your hand. And the series now has multi-GNSS support and TopoActive mapping. Explore the Terrain The GPSMAP 64x handheld series comes preloaded with TopoActive maps featuring routable streets and trails so you can take the journey off the grid. Now you can know your surroundings such as waterways and natural features as well as buildings, international boundaries and more. You can also find thousands of points of interests, including shops, restaurants, universities, parks and accommodations. Keep Your Fix With its quad helix antenna and high-sensitivity receiver and multiple global navigation system support (GPS, GLONASS and Galileo), the GPSMAP 64x series locates your position quickly and precisely and maintains its location in more challenging environments than GPS alone. Add Maps With 8 GB of onboard memory and a microSD card slot for expandable storage, you can conveniently download even more maps. Satellite Imagery The GPSMAP 64x series also supports BirdsEye Satellite Imagery (subscription required) that lets you load satellite images and integrate them with your maps. Stay Connected With smart notifications, you can wirelessly receive emails, texts and alerts from your paired compatible device. Stay connected without having to dig into your backpack for your smartphone. Find Fun The GPSMAP 64x series features paperless geocaching. Upload GPX files straight to your device, and view key information such as location, terrain and hints from Geocaching.com.
