

GPS GARMIN MAP 67

Garmin GPSMAP 67 - outdoor navigation device Explore nature with the robust, high-quality handheld devices from the Garmin GPSMAP 67 series. They offer multiband technology and advanced GNSS support for greater accuracy in steep terrain, narrow urban canyons and dense forests. You can always see your route on the 3-inch color display, which is easy to read even in poor lighting conditions. The GPSMAP 67 series features ABC sensors (barometer and compass), pre-installed routable TopoActive Europe maps and access to satellite imagery. In conjunction with your smartphone, you receive smart notifications, weather updates, geocaching live data directly on the device and use the Garmin Explore™ app. The GPSMAP 67 offers you a battery life of up to 180 hours in GPS mode and up to 840 hours in expedition mode.

The highlights of the Garmin GPSMAP® 67 series GPS handheld device tested according to MIL STD 810G with 3" color display Improved battery life Advanced Multi GNSS support Reliable sensors: 3-axis compass, barometric altimeter, quad helix antenna Waterproof to IPX7 ANT+, Bluetooth, WiFi, compatible with night vision devices TracBack, waypoint and route navigation LED flashlight with SOS signal function USB C compatibility and expandable storage Compatible with Garmin Explore app and Messenger app

Features

MULTI-GNSS

Thanks to several global satellite systems (GPS, GLONASS, Galileo, BeiDou, QZSS) and multi-frequency technology, positioning is absolutely precise

BATTERY LIFE

In GPS mode, the GPSMAP 67 offers a battery life of up to 180 hours, up to 840 hours in expedition mode, in the inReach version up to 165 hours with 10 minute tracking and up to 425 hours in expedition mode

PRECISE NAVIGATION

Automatically calibrates the barometric altimeter and 3-axis electronic compass to always provide the most accurate data available

ABC SENSORS

Automatically calibrates the barometric altimeter and 3-axis electronic compass to always provide the most accurate data available

SATELLITE IMAGES

Download high-resolution satellite images directly to your device via Wi-Fi® technology. Easily find paths, find stands and parking spaces, create waypoints and much more

PRE-INSTALLED MAPS

The pre-installed TopoActive Europe maps show you peaks, parks, coastlines, rivers, lakes and geographical points. Garmin Topo Maps, CustomMaps, BirdsEye and City Navigator are also compatible with the GPSMAP 66 series

GARMIN EXPLORE

Use the Garmin Explore website or app for navigation, waypoints, routes, activities and collections. Plan your next trip by downloading maps and creating routes

GEOCACHING LIVE

Get automatic cache updates from Geocaching Live, including descriptions, logs and hints. When connected via Wi-Fi technology or with the Garmin Explore™ smartphone app, each discovery is uploaded to your Geocaching.com profile

ACTIVE WEATHER

When connected to the Garmin Explore™ app, you can get real-time weather forecasts

SHARING THE LOCATION

Share your location with friends and family from anywhere. Your loved ones at home can also ping your device to get your exact GPS position.

Product features

Product dimensions: 6.2 x 16.3 x 3.5 cm

Display size (W x H): 3.8 x 6.3 cm (76 cm diagonal)

Display type: Transflective TFT display

Display resolution: 240 x 240 pixels

Satellite network: GPS, GLONASS, Galileo, IRNSS, QZSS

Pre-installed maps: TopoActive Europe

Connectivity: BLE | ANT+ | WIRELESS INTERNET ACCESS

Water resistance: IPX7

Battery type: Li-ion

Battery life: GPS mode / 10 minute tracking: Up to 180 hours

Expedition Mode: Up to 840 hours

Weight: 230 g (manufacturer information) Scope of delivery: Garmin GPSMAP® 67 series USBC charging/sync cable carbine documentation
